METRON
CONSULTING

Metron Consulting is a Saudi professional services firm specializing in internal audit, governance, risk management, and compliance, alongside institutional and organizational advisory services focused on enhancing control and operational environments. We support boards of directors and executive management in enabling strategic clarity and enhancing the effectiveness of governance, internal controls, and oversight. Our professional services combine practical expertise, an in-depth understanding of regulatory environments, and internationally recognized best practices.

Our Vision – Our Mission – Our Values

Our Vision

To be the trusted professional partner in strengthening governance and enhancing institutional performance.

Our Mission

To deliver high-quality professional and advisory services that enable organizations to make better decisions and achieve sustainable impact.

Our Value

We believe that corporate values form the foundation of our success and long-term sustainability. They reflect our identity, guide our conduct, and inspire our team to pursue excellence and innovation.

Professional Excellence

We are committed to delivering high-quality services grounded in expertise, knowledge, and recognized professional best practices.

Integrity

We uphold the highest professional and ethical standards in all our engagements and deliverables.

Client Focus

We understand our clients' needs and strive to provide practical solutions tailored to their regulatory and operational environments.

Sustainable Impact

We believe that true value is created through practical solutions that contribute to institutional development and long-term business sustainability.

Our Services

Internal Audit

We provide independent internal audit services designed to strengthen the effectiveness of governance, internal controls, and risk management. Through risk-based audit engagements, we deliver practical insights that support boards of directors and executive management in enhancing the control environment and improving institutional performance.

Our services include:

- Establishing and developing internal audit functions.
- Developing internal audit charters, policies, and procedures.
- Preparing risk-based internal audit plans.
- Conducting internal audit engagements.
- Assessing and improving the quality of internal audit activities.

Our Services

Governance and Control Effectiveness

We support organizations in developing clearer and more effective governance environments that enhance the quality of institutional oversight, clarify roles and responsibilities, and strengthen the effectiveness of controls and oversight across the organization.

Our services include

07 Developing corporate governance frameworks.

06 Preparing regulations and organizational frameworks.

05 Assessing governance and control effectiveness.

04 Assessing key controls.

03 Assessing the effectiveness of boards and committees.

02 Enhancing control and operational environments.

01 Developing authority and responsibility matrices.

Outcomes of Effective Governance | Accountability | Compliance | Effective Risk Management | Achievement of Strategic Objectives
